Pool Play Tie Breaker:

The tiebreaker for pool-play bracket seeding will be determined by the following criteria, based on all games played in the tournament until the tie is broken: Head-to-Head, Least Points Allowed, Highest Point Differential (up to 20 points per game), and Most Points Scored. If the standings are tied between 2 teams, the team that won the head-to-head matchup will win the tiebreaker. If 3 or more teams are tied, the head-to-head record between the tied teams is used. If they are still tied, the fewest points allowed in all games played in the pool will be used. If they are still tied, the aggregate point differential from all tournament games will be used. A maximum of +20 points and -20 points is calculated for each game. A win by forfeit counts as +20 points, and a loss by forfeit counts as -20 points. If two or more teams are still tied, the tiebreak procedures for those teams restart with the Head-to-Head tiebreaker.
